SHIRAHAMA, WAKAYAMA, JAPAN  
2000 — 2003

## CONTENTS

### NO. 1 (December, 2000)

1. Nakamura, K. and Chullasorn, S.: <i>Eurycyde flagella</i> , a new pycnogonid species from Phuket Island, Thailand .....	1
2. Ogawa, K. and Takahashi, K.: Notes on Japanese ahermatypic corals - II New species of <i>Dendrophyllia</i> .....	9
3. Fukushima, T., Shirayama, Y. and Kuboki, E.: The characteristics of deep-sea epifaunal megabenthos community two years after an artificial rapid deposition event .....	17
4. Shimomura, M. and Mawatari, S. F.: <i>Santia katoi</i> sp. nov., a new isopod crustacean from Shirahama, Japan (Asellota: Santiidae) .....	29
5. Ando, H. and Makioka, T.: Structure of the hermaphroditic gonads in a Japanese cephalocarid crustacean, <i>Sandersiella</i> sp. with special reference to the oogenetic mode.....	35

### NOS. 2 / 3 (March, 2002) \*

6. Shimomura, M. and Mawatari, S. F.: Munnidae from Japan (Crustacea: Isopoda: Asellota) .....	45
7. T. V. Raveendran and Harada, E.: Impact of predation by <i>Ostracion immaculatus</i> (Pisces: Ostraciidae) on the macrofouling community structure in Kanayama Bay, Kii Peninsula (Japan) .....	75
8. T. V. Raveendran and Harada, E.: Macrofouling community structure in Kanayama Bay, Kii Peninsula (Japan) .....	89
9. Y. Xing and Wada, K.: Temporal and spacial patterns of the alga <i>Cladophora conchophoria</i> on the shell of the intertidal gastropod <i>Turbo coronata coreensis</i> .....	103
10. Murakami, C., Adrianov, A. and Sirayama, Y.: Taxonomic study of the Kinorhyncha in Japan I. <i>Pycnophyes tubuliferus</i> Adrianov, 1989 (Kinorhyncha: Homalorhagida) from Japan.....	113
11. Itani, G.: Two types of symbioses between grapsid crabs and a host thalassinidean shrimp .....	129

\*The year published was misprinted.

### NOS. 4 / 6 (March, 2003)

12. Chavtur, V. G. and Stovbun, G. G.: Revision of pelagic ostracods of the subfamily Archiconchoecinae .....	139
13. Genzano, G. N. and Kubota, S.: Synchronous mass release of mature medusae from the hydroid <i>Halocordyle disticha</i> (Hydrozoa, Halocordylidae) and experimental induction of different timing by light changes .....	221
14. Hiwatari, T.: Taxonomic studies on <i>Hyale</i> (Crustacea, Amphipoda, Hyalidae) from the coast of Japan and adjacent waters .....	229

## Instruction to Authors

**The Publications of the Seto Marine Biological Laboratory** (referred as the Publications hereafter) are issued regularly by the Seto Marine Biological Laboratory of Kyoto University. The publications aim to contribute to the progress of marine biology and related sciences by publishing the scientific papers regarding organisms of mainly Japanese and Indo-Pacific waters. Papers related to the natural history, such as taxonomy, morphology, and evolutionary biology are the most suitable, and particularly those recording works done at the Laboratory are favorable.

Submitted papers must not have been published nor be under consideration for publishing elsewhere in any languages. The submitted papers will be reviewed at least by two referees, and only those papers evaluated their scientific findings are worth for publication will be accepted. Such papers that is judged not paid sufficient attention to the wildlife conservation and the humane treatment of animals will be rejected.

Manuscript should be sent to the editor in chief (Yoshihisa Shirayama) of the Publications at the following address:

Seto Marine Biological Laboratory,  
459 Shirahama, Wakayama Pref., 649-2211, Japan

Authors are requested to read the following instruction carefully, and prepare their manuscript properly. Poor attention to the instruction may cause unnecessary delay of the processing of papers.

Manuscripts should be prepared in English as concisely as possible. Those authors whose native language is not English should ask native English speaker to correct language usage before submitting the manuscript. Original and two copies of the manuscript consisting of text, tables and the illustrations should be provided.

### Text:

The text should be printed in double spaced manner on one side of A4 size paper leaving margins of more than 3 cm in width all around. All sheets should be numbered consecutively, and the name of the senior author should be given on the upper right corner.

The first page of the text should include the title of the paper, information of author(s) (name, affiliation, and corresponding address inclusive of e-mail address of all authors and telephone and fax numbers of the representative author), the running title (not more than 50 characters), and key words (not more than 10 items).

The second page should include only the abstract of the paper (less than 300 words), expressing concisely the hypothesis, the approach the author(s) adopted, the results, and the conclusion.

The main body of the text consisting of introduction, materials and methods, results, discussion, acknowledgments, reference and so on, should be prepared from page 3. The papers listed in the reference section should be referred as Tokioka (1960, 1961a) or (Harada, 1995; Harada *et al.*, 1992; Harada and Fuse, 1994).

The reference should list all the papers mentioned in the text alphabetically in the following manner.

### *Referring papers published in journals:*

Shirayama, Y. 1984a. The abundance of deep-sea meiobenthos in the Western Pacific in relation to environmental factors. *Oceanologica Acta*, 7, 113-121.

Shirayama, Y. 1984b. Vertical distribution of meiobenthos in the sediment profile in bathyal, abyssal and hadal deep-sea systems of the Western Pacific. *Oceanologica Acta*, 7, 123-129.

Shirayama, Y. and Horikoshi, M. 1989. Comparison of the benthic size structure between sublittoral,

upper-slope and deep seas of the Western Pacific. *Internationale Revue der gesamten Hydrobiologie*, 74, 1-13.

(It should be noticed that the title of journals should not be abbreviated.)

*Referring papers published in books:*

Shirayama, Y. 1995. Current status of deep-sea biology in relation to the CO<sub>2</sub> disposal. In, Handa, N. and Ohsumi, T. (eds.) *Direct Ocean Disposal of Carbon Dioxide*, Terra Scientific Publishing Company, Tokyo, pp. 253-264.

*Referring a book as a whole:*

Gage, J. D. and Tyler, P. A. 1991. *Deep-Sea Biology*. Cambridge University Press, Cambridge, 504 pp.

**Tables:**

The tables should be provided in the shape ready to reproduce. Each table should be printed on a separate sheet of paper using a font "Times new roman" or related one. The large table that can not be printed in 2 pages is not acceptable.

**Figures:**

Illustrations should be prepared in a size of not smaller than B5 and not larger than A3. They should fit to the shape of the page, that is 14 cm wide by 20 cm height at maximum. Authors are requested to pay the most careful attention to the thickness of lines, the size of letters and the spacing of drawings. Photographs should be printed in a high contrast tone. Manuscripts inclusive of figures will not be returned to the authors unless they requested. The cost for printing the color plates must be covered by the author.

**Proofs:**

The first galley proof will be sent to the senior author. The author should return it to the editor within 3 days after the receipt. Only corrections of typographic errors are allowed at this stage.

**Reprints:**

The publications provide 50 reprints to the senior author free of charge. The author can order additional reprints when the author returns the galley proof to the editor.

**Page charge:**

The publications do not set the maximal length of each article, and will not bill the page charge for the regular black-ink printing. However, the cost for printing color plates should be covered by the author(s).

**Computer files:**

To save the cost for publishing and to reduce typographic errors, the publications request the author to provide computer files to the editorial board when the manuscript is accepted for publishing. Use of the 3.5 inch 2DD or 2HD floppy disk (preferably formatted by MS-DOS) that records plain text files and clearly marked the author name and the title of the paper is requested. Use of electric mail may be also acceptable. If the author used a word processor for preparing the manuscript, the binary file used by the program is also requested to be provided, and information for the word processor program must be provided. It is not recommended to provide data files in stead of line drawings and photographs.

**PUBLICATIONS OF THE SETO MARINE  
BIOLOGICAL LABORATORY**

**Volume 35**

- Nos. 1/3 (Articles 1 to 5) ..... issued on March 31, 1991  
Nos. 4/5 (Articles 6 to 11) ..... issued on March 31, 1992  
No. 6 (Articles 12 to 18) ..... issued on November 30, 1992

**Volume 36**

- Nos. 1/2 (Articles 1 to 9) ..... issued on March 30, 1993  
No. 3 (Articles 10 to 14) ..... issued on November 30, 1993  
No. 4 (Articles 15 to 22) ..... issued on November 15, 1994  
Nos. 5/6 (Articles 23 to 31) ..... issued on July 31, 1995

**Volume 37**

- Nos. 1/2 (Articles 1 to 5) ..... issued on February 29, 1996  
Nos. 3/6 (Articles 6 to 14) ..... issued on December 25, 1996

**Volume 38**

- Nos. 1/2 (Articles 1 to 9) ..... issued on December 25, 1997  
Nos. 3/4 (Articles 10 to 12) ..... issued on December 25, 1998  
Nos. 5/6 (Articles 13 to 19) ..... issued on September 30, 1999

**Volume 39**

- No. 1 (Articles 1 to 5) ..... issued on December 25, 2000  
Nos. 2/3 (Articles 6 to 11) ..... issued on March 31, 2002  
Nos. 4/6 (Articles 12 to 14) ..... issued on March 31, 2003
